Summary with Outcomes:-

Shyam Lal College, IQAC & Department of computer Science organised a 30 hours Certificate course in "Graphics Designing & Webpage Development" from 04-01-2018 to 24-01-2018. The aim of this course was to provide students an opportunity to learn high-demand skills of designing attractive web pages and using Graphics tools in creating and enhancing visualization effects. Inclusion of rigorous, authentic assignments and live project in the course added value to their skill set. The highlight of the course was hands-on training to participants by Subject Matter Experts from the industry in the area.

There were five sessions each on graphics designing and Front-End Web development. Students had the opportunity to put together their skills in the projects designed and created by them which provided an opportunity to them to ideate the concepts, implement the same and carry it to completion. The speaker interacted with the students on one-to-one basis and provided them with valuable tips. The students found the sessions beneficial and interesting as the instructors shared their immense knowledge and expertise on the topic in an elaborate yet simple manner. They made students familiar with the basics of designing the world and resolved their doubts as well with patience. This short course provided the participants an opportunity to learn high-demand skills of designing attractive web pages and using Graphics tools in creating and enhancing visualization effects. 130 Students enrolled for this course.
