

## Eco-club (the\_last\_leaf) Shyam Lal College

### Report on World Environment Day In collaboration with Department of environment, Government of India

As we had seen the worst situation of mankind due to the second wave of COVID-19 and because of this various states went through the shortage of oxygen. We all realised the importance of plants for the survival of the human race. As we all have gone through this phase, our Eco-club team took an initiative to plant as many as trees we can and to aware others for the same in their own vicinity. On eve of “Azadi Ka Amrit Mahotsav” Eco-club of Shyam Lal College (University of Delhi) in collaboration with IQAC and Swachhta Action Plan had started a “Plantation Drive” on the World Environment Day (5<sup>th</sup> June 2021) in the college campus and different parts of the country and also created awareness through Facebook, Instagram, Whatsaap, Youtube etc. Our 50 volunteers not only did plantation but also did physical cleanliness drive in their nearby areas like kids play area, old age people park and lush green area with the aim of enhancing the beauty and pleasure. The dustbins in the park have been demolished due to which the waste gets propagate in the park. So under this drive our team repaired them and they got back to their original form.
