

Eco-club (the_last_leaf) Shyam Lal College
Cleanliness and plantation drive during Covid-19
In collaboration with
Department of environment, Government of India

Cleanliness keeps one's body, mind, and soul clean and peaceful. Maintaining cleanliness is the essential part of healthy living because it is the cleanliness only which helps to improve our personality by keeping clean externally and internally. Our Eco-club volunteers, in collaboration with Swacchta Action Plan, not only did cleanliness but also sensitize the people and educate them about these issues which are alarming these days and took initiative and carried out cleanliness and plantation drive in their respective areas on 5th Feb, 2021 with aim of enhancing the beauty and pleasure of nearby parks during Covid 19. The students worked on roads and public parks of the city. The team of the students took the initiative to pursue cleanliness and promote its importance for healthy living. Team of six students took this initiative and they also interacted with the commuters and educate them about the waste segregation and gave emphasis on practicing home composting.
