Bulletin of Information

Undergraduate Admissions '22

Dear Aspiring Students,

I take this opportunity of welcoming you all to the University of Delhi, a premier Institute for higher education in India.

It gives me immense pride and pleasure to share with you that our university, established and incorporated in 1922 through an Act of the then Central Legislative Assembly, will complete its hundred glorious years on 1st May 2022. The University, which comprised three Colleges with 750 students in 1922, has expanded to 90 Colleges, 16 Faculties, and 86 Academic Departments spread over 407 acres across Delhi, with a student strength of more than 6.7 lakhs, reflecting a microcosm of the diversity in India.

The University is a premier university in the country as per the national and international rankings. The National Institutional Ranking Framework (NIRF) for the year 2021 places the University at 12th rank among universities. As per the Centre for World University Rankings (CWUR), the National Rank of the University of Delhi is 6th for 2021-22. The Times Higher Education Asia University Ranking of the University is 201-250 (released in June 2021). QS World University Ranking of the University is 501-510 (2022), QS India Ranking (2021) of the University is 6th among Indian educational institutions and universities, and the QS Asia University Ranking (2022) is 77.

The University has always been a pioneer in laying academic milestones for others to follow. It is actively engaged in bringing a paradigm shift in higher education by orienting curriculum frameworks and structure of the programs with the National Education Policy (NEP) 2020. The NEP 2020 aims to transform the education system in the country and the University is leaving no stone unturned to implement the policy in its true spirit.

It is a pleasure to share with you that the University has decided to implement NEP 2020 from the academic year 2022-23. Implementation of NEP in the University, where more than 500 courses are run for about seven lakh student s a mammoth task. However, the University has taken the bold step of implementing a new Undergraduate Curriculum Framework 2022 (UGCF), which will require overhauling the existing system to make the curriculum in line with the philosophy of NEP. The UGCF 2022 is formulated with a student-centric approach and provides flexibility in terms of choice of disciplines of study, developing academic pathways having creative combinations of disciplines for study with Multiple-Entry and Exit points, determining semester-wise academic load and the ease to learn at his/her pace, to the extent possible.

Our students come from as many as 75 world nations, with numbers increasing year after year. The UGCF 2022 shall promote internationalization as the undergraduate curriculum aligns with the international standards and shall promote students' mobility.

Lakhs of students all over India dream to be part of this University after completing their schooling. Enabling equal access for enrolment on a level playing field is the first step toward

making education accessible and inclusive. A significant step towards this is the adoption of the Common University Entrance Test (CUET) as the mode for admission of students in various undergraduate programs of the University from the academic year 2022-23.

The University is expanding its academic horizon and adequate infrastructure development is planned accordingly. After demerger of Delhi College of Engineering and Netaji Subhas Institute of Technology from the University, the vacuum so created is now going to be filled by the introduction of three Bachelor of Technology Programmes, namely B. Tech in Computer science and Engineering, B. Tech. in Electrical Engineering and B. Tech. in Electronics and Communication Engineering under the Faculty of Technology. Accordingly, a new building for the Faculty of Technology is planned to be set upright in the heart of North Campus. Infrastructural expansions are underway, including two blocks for Office and Laboratory in Maurice Nagar and two new hostels in Dhakka Complex. For the convenience of students residing in various parts of Delhi, Facilitation Centres are being set up in Najafgarh (West Delhi), Bhawana (North-West Delhi), SurajmalVihar (East Delhi), and Fatehpur Beri (South Delhi) to deal with various administrative matters.

During the recent pandemic, the University remained functional, without compromising with the health of its students and employees. The admissions, teaching, learning well as Examination continued in online mode . While the situation is returning to normalcy, the University plans to roll out its year long Centenary celebrations with which it intends to leave an indelible mark not only on the academia, but on the larger community as well.

I urge everyone joining the University of Delhi family to come forward and play an active role in the Centenary Celebrations and take forward the rich legacy handed down to us through the hard work and sweat of our predecessors. It is indeed our collective responsibility to give our best in all spheres of our engagement, without compromising with mediocracy, so that we continue to excel not just today but for times to come.

Best Wishes!

Yogesh Singh
Vice-Chancellor

University of Delhi
The University of Delhi is a premier university of the country with a venerable legacy and international acclaim for the highest academic standards, diverse educational programs, distinguished faculty, illustrious alumni, varied co-curricular activities and modern infrastructure. Over the many years of its existence, the University has sustained the highest global standards and best practices in higher education. Its long-term commitment to nation-building and unflinching adherence to universal human values are reflected in its motto: '*NishthaDhriti Satyam*' 'निष्ठा धृति सत्यम्' (Dedication, Steadfastness and Truth).

Established in 1922 as a unitary, teaching and residential University by the Act of the then Central Legislative Assembly, a strong commitment to excellence in teaching, research and social outreach has made the University a role model and trendsetter for other universities.

16 Faculties   **86 Departments**

90 Colleges   **7.0+ Lakh students**

The President of India is the Visitor, the Vice-President is the Chancellor and the Chief Justice of the Supreme Court of India is the Pro-Chancellor of the University. Beginning with three colleges and 750 students, it has grown into one of the largest universities in India with 16 faculties, 86 academic departments, ninety one colleges and over seven lakh students. Over 500 programs offered by the University are approved by Academic and Executive Councils, of which close to 200 programs are being considered for NAAC accreditation purposes. The rest being run in colleges are separately accredited.

Today, the university boasts of as many as 15 big libraries apart from libraries in colleges. The University Science Instrumentation Centre (USIC), situated close to the Physics and Chemistry Departments, houses several sophisticated and high-end research instruments. These instruments are used quite frequently by Teachers and Research Scholars of postgraduate departments of the university and many other institutions in Delhi and its neighbourhood. The University has recently laid a fiber-optic network in the North and the South Campuses, connecting all colleges and departments.

2022 – The Centenary Year of the University of Delhi

This year is a landmark year in the historical journey of the University of Delhi. On the 1st of May in the year 1922, the University was founded with three colleges, namely St. Stephens College, Ramjas College and Hindu College and comprised 750 students. And now, a century later, the University has expanded to include 90 Colleges, 16 Faculties and 86 Academic Departments, spread over 407 acres across Delhi and with a student strength of more than 6.7 lakhs. Indeed, in its composition and ethos, the university aptly represents a microcosm of the spectacular diversity of India. It is a matter of great pride for us that over the last one hundred years of its glorious presence, the University has charted a distinguished path to emerge as an institution of great eminence, both nationally and internationally. All its constituent members take great pride in its rich legacy, which dates back to the pre-independence times and which also witnessed its engagement with the national movement. From then to now, the University has moved from strength to strength to establish exemplary landmarks in all domains, including academics, research, extra-curricular engagement and social outreach.

Students and research scholars have always been considered the university's core stakeholders. Placed in such momentous times, we feel very happy to note that all those of you who choose to seek admission to one or the other courses at the university will not only get to become a part of one of the most distinguished institutions of higher learning in the country but will also acquire the privilege of being present on the most historic occasion of its Centenary. You are indeed fortunate that you will be that special Centenary batch that will get an opportunity to share in and play a meaningful role in the rollout of the Centenary celebrations, which have been planned as yearlong programs and initiatives, beginning on the Centenary Foundation Day of 1st May 2022 and culminating with the Foundation Day of 2023. In this context, you will be pleased to know that the Centenary Logo for the yearlong celebration has also been selected from the entries received through an open competition held for university students. Ms. KratikaKhinchi, a second-year student of Gargi College, is the creator of the Centenary Logo.

The yearlong celebrations shall see the organization of multifarious programs at the university, department and college levels. These will include programs of institutional social responsibility like community outreach initiatives and plantation work, among others; programs of academic engagement like seminars, conferences, workshops and lecture series; cultural events in myriad realms; sports competitions and events; book fairs; exhibition of rare books and manuscripts; organization of seminars, conferences, workshops and lecture series; initiatives in the domain of research & development; green initiatives; innovative practices and a plethora of student-centric activities.

The wide-ranging celebrations, spread across campuses, departments and colleges, and encompassing curricular and extra-curricular spectrums shall surely provide ample opportunities for students of all interests and aptitudes to participate. We look forward to your being a part of the University of Delhi and sharing in its Centenary Celebrations. We also await your valued role and contribution to furthering the prestige and glory of this much-acclaimed institution.

Undergraduate Curriculum Framework (UGCF) - 2022
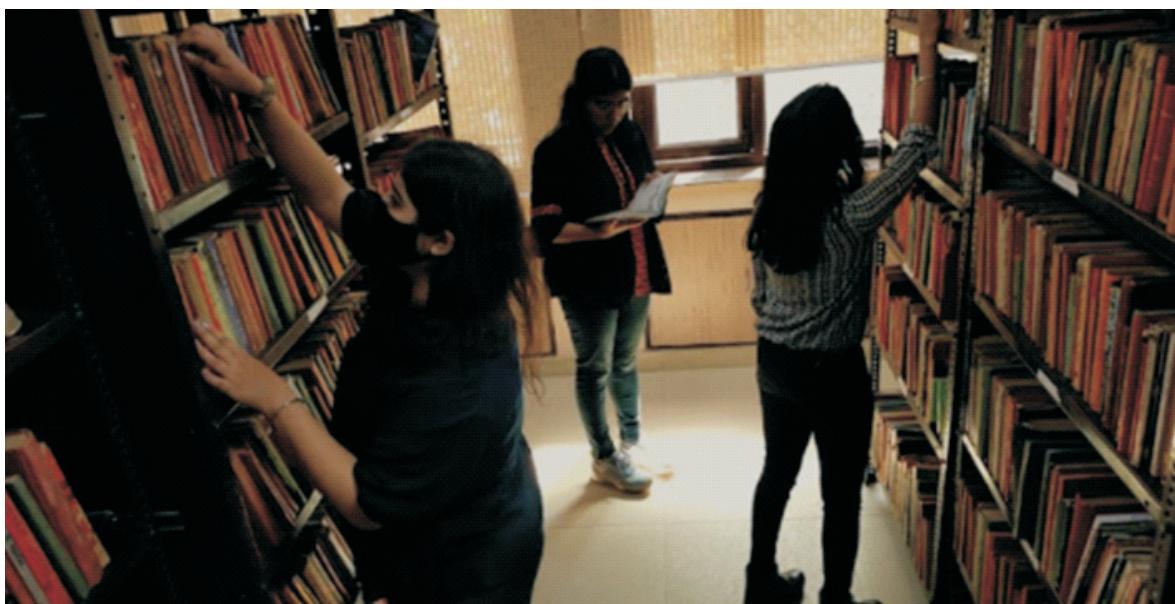

The UGCF - 2022 underlines the historical perspective, philosophical basis, and contemporary realities of higher education as enshrined in the National Education Policy (NEP) - 2020 and endeavours to synchronize these cornerstones while charting the road ahead for the state of higher education.

The University of Delhi, a premier seat of teaching, learning, and research in higher education, acclaimed nationally and internationally, has nurtured the quest for reaching the peak in every sphere of education, in its true sense, in its contribution to the nation-building. Moreover, being a Central University mandated to act as the torch bearer in expanding the horizons of human resource development through the expansion of higher education, it has always paid an adequate premium towards constructive and meaningful innovation as a regular feature in its undergraduate curriculum development over the years.

A reflection of such sustained and continued endeavour is amply exemplified in the successive revision of undergraduate curricular framework over the decades and especially in the last two decades, keeping pace with the emerging trends in higher education in the new millennium globally and its critical importance in enriching the youth of our nation, well equipped with the prevailing priorities of skill development through innovative and practical oriented teaching-learning more than anything else.

To actualise the noble objective, as succinctly brought out in the NEP - 2020, the university has endeavored to explore the possibility of further restructuring and refinement of its undergraduate curriculum framework in line with the objective and underlying philosophy of the NEP - 2020 to capture the imagination of the youth of our nation which depicts the contemporary realities of our demographic advantage globally.

The resultant outcome of this comprehensive exercise undertaken by the university is the UGCF -2022 which not only underlines the heart and soul of the NEP 2020 in letter and spirit but also goes on to create a teaching-learning framework at the undergraduate level to attract the young minds towards research, innovation, apprenticeship, social outreach, entrepreneurship and similar such areas of human knowledge and endeavour while imbibing the truly charged academic environ of the university and its constituent colleges.

B.A. (Hons.) Political Science

This program aims to expose the students to the manner in which the questions of politics have been posed that have implications for more critical questions of thought and existence in society and is being solved. By introducing the philosophers from different traditions, students can answer a few fundamental political questions: Why do we live in political communities? What is the 'best' form of government? How human nature influences political decision-making? How and in what circumstances do we need to resist bad rulers? By the end of the course, students are able to understand the idea of modernity and establish a connection between societal changes posed through modernity and its prescribed political suggestions.

UNDER-GRADUATE PROGRAMS IN SCIENCE, MATHEMATICS, AND TECHNOLOGY

B.Sc. (H) Anthropology

The B.Sc. degree in Anthropology aims for a comprehensive and integrated framework for understanding human beings and humanities and their adaptabilities across time and space dimensions. It deals with all kinds of communities, including tribal, rural, and urban societies. The curriculum is a broad framework that exposes the students to this diversity and helps them understand the challenges, best practices, and biological and cultural adaptive features of communities that have evolved in the process of adaptations and acclimatization. Anthropology as a discipline is oriented toward a holistic and relativistic understanding of humanity from both biological and cultural perspectives on the one hand and from the distant past to the present and also future possibilities.

Eligibility for Admission in B.Sc. (H) Anthropology

Program Specific Eligibility
Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Biology/Biological Studies/ Biotechnology/ Biochemistry
Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language from List A in CUET.

College Offering B.Sc. (H) Anthropology

B.Sc. (Hons.) Biological Science

Biological Science is an interdisciplinary science and relies on strong foundations of Chemistry, Biophysics, Biochemistry, Botany and Zoology. It aims to study the structure and function of different constituent parts/biomolecules of living organisms and their complex inter-relationships to maintain and perpetuate various life forms. The scope of Biological Science as an interdisciplinary subject is extensive. The Biological Science programme at the undergraduate level has been envisioned to emphasize the importance of interdisciplinary nature underlying the study of all the aspects of structure and function of living organisms.

Eligibility for Admission in B.Sc. (Hons.) Biological Science

Program Specific Eligibility
Candidates must appear in CUET in the following subject combination:
Physics + Chemistry + Biology/Biological Studies/ Biotechnology/ Biochemistry
Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.
Candidates must have obtained a minimum of 30% score in any one language of List A in CUET.

B.Sc. (Hons.) Botany

The B.Sc. (Hons.) Botany curriculum offers the essential knowledge and technical skills to study plants holistically. Students would be trained in all areas of plant biology using a unique combination of core and elective papers with significant interdisciplinary components. Students would be exposed to cutting-edge technologies currently used in the study of plant life forms, their evolution and interactions with other organisms within the ecosystem. Students would also become aware of the social and environmental significance of plants and their relevance to the national economy.

B.Sc. (Hons.) Zoology

Through this course, the students will be more equipped to learn and know about different human systems, their coordination and control. The Zoology degree program provides a platform to comprehend classical genetics to understand the distribution of other traits among populations, their inheritance, ethnicity and correlate with contemporary and modern techniques like genomics, metagenomics, genome editing and molecular diagnostic tools. This course's practical and theoretical skills will help design different public health strategies for social welfare. The course has been designed to provide in-depth knowledge of applied subjects ensuring the inculcation of employment skills so that students can make a career and become entrepreneurs in diverse fields of aquatic biology, sericulture, apiculture etc. After completing this course, students can contribute as policymakers in wildlife conservation, animal preservation and environment protection.

B.Sc. (Hons.) Biochemistry

Biochemistry is the branch of dynamic science that explores the chemical processes within living organisms/systems. The study of Biochemistry aims to understand how all the molecules that constitute living organisms interact to maintain and perpetuate life. It deals with the complexity of living organisms, the microscopic and macroscopic structures within organisms with specific functions, and their systems for extracting and transforming energy from the environment. This course is designed to enable the students to gain theoretical knowledge and hands-on experience in the laboratory. In addition, the course content encourages students to cultivate keen observational skills and develop the ability to analyze and interpret experimental data, making them suitable for future careers in higher education and employment in industry and research institutes.

Eligibility for Admission in B.Sc. (Hons.) Biochemistry

B.Sc. (Hons.) Chemistry

The BSc (Hons.) Chemistry curriculum offers courses in inorganic, organic, physical, materials and analytical. The courses will train students with sound theoretical and experimental knowledge that suits the need of academics and industry. The courses also offer ample skills to pursue research as a career in chemistry and allied areas. This program is offered by one of the largest and oldest Departments in the country to produce the best minds to meet the demands of society. The University of Delhi hopes that the programme BSc (Hons.) Chemistry will help students make an informed decision regarding the goals they wish to pursue in further education and life.

B.Sc. (Hons.) Physics

Physics is an experimental and theoretical science that systematically studies the laws of nature operating at length scales from the sub-atomic domains to the entire universe. The core areas of study within the disciplinary/subject area of the B.Sc. (Hons.) Physics program are: Classical and Quantum Mechanics, Electricity and Magnetism, Thermal and Statistical Physics, Wave theory and Optics, Physics of the Materials, Digital Electronics, and specialized methods of Mathematical Physics and their applications in different branches of the subject. Along with the theoretical course work, students also learn physics laboratory methods for different branches of physics, specialized measurement techniques, analysis of observational data, including error estimation, and scientific report writing. The latest addition to Physics pedagogy is computational physics, which involves adapting Physics problems for algorithmic solutions and modelling and simulation of physical phenomena.

B.Sc. (Hons.) Polymer Science

The curriculum of B.Sc. (Hons.) Polymer Science accomplishes excellence in education and research to meet the growing needs of society. This course provides an environment conducive to innovation, creativity, implementation of new ideas and team spirit to foster young and fresh talents. In addition, this course further offers awareness and understanding of polymer science's contemporary trends and growth. This will further be substantiated by enabling students in relevant academic and professional skills through self-reflections and preparing them to contribute to the growing discipline of polymer science and its application in everyday life.

Eligibility for Admission in B.Sc. (Hons.) Polymer Science

B.Sc. (Hons.) Computer Science

The B.Sc. (H) Computer Science curriculum offers to develop theoretical foundations in computer science to build computational thinking, analytical, and problem-solving skills. The program prepares the students for higher studies in Computer Science and its applications. The course aims to produce skilled graduates with a creative mindset who can recognize a computational problem either in IT industry or society and develop effective solutions. In addition, the students develop expertise in programming skills using contemporary programming languages used by the software industry. It covers core computer science topics like computer systems architecture, data structures, computer networks, operating systems, computer graphics, algorithms, software engineering, database management, theory of computation, artificial intelligence, and information security.

B.Sc. (Hons.) Electronic Science

In recent years, Electronic Science has made unprecedented growth in new technologies, new ideas and principles. The B.Sc. (Hons.) Electronic Science curriculum offers undergraduates a complete package to understand fundamental to advanced electronics. They can equip themselves with electronics fundamentals with a comprehensive skill set compatible with industry 4.0 standards. The exhaustive curriculum will prepare them to pursue higher education and compete in the job market. The program covers embedded systems, advanced computer and data communication, robotics, control systems, VLSI Design and Fabrication, Nanoelectronics, Artificial Intelligence, Internet of Things and others.

B.Sc. (Hons.) Geology

This program aims to develop an ability to perceive the geological processes, which generally operate at time scales ranging from days to billions of years, with the fundamental premise that the present is the key to the past. It prepares students to develop their logical thinking and communication skills with science-based imaginative perception. The ethical, societal context of applied geology in economic and environmental contexts is the fundamental balance that a geology graduate student is expected to acquire. Propagating their thoughts through presentations and participation in various related societies enhances their cultural- social-national centric thought.

B.Sc. (Hons.) Mathematics

The B.Sc. (Hons.) Mathematics program aims at developing the ability to think critically, logically, and analytically and hence use mathematical reasoning in everyday life. Pursuing a degree in mathematics will introduce the students to several interesting and valuable ideas in preparation for several mathematics careers in education, research, government sector, business sector and industry. The B.Sc. (Hons.) Mathematics program covers the full range of mathematics, from classical Calculus to Modern Cryptography, Information Theory, and Network Security. The course lays a structured foundation of Calculus, Real & Complex analysis, Abstract Algebra, Differential Equations (including Mathematical Modelling), Number Theory, Graph Theory, and C++ Programming exclusively for Mathematics.

Eligibility for Admission in B.Sc. (Hons.) Mathematics

Program Specific Eligibility
Candidates must appear in CUET in the following subject combination:
Any one language from List A + Mathematics + Any two subjects out of which one should be from List B1
Merit will be based on the CUET scores obtained from the above-mentioned combination of subjects.

B.Sc. (Hons.) Home Science

The B.Sc. (Hons.) Home Science curriculum offers the students the requisite knowledge, skills, and aptitude in all the areas of Home Science. As a discipline, Home Science integrates the ingredients of the sciences, social sciences, and technology to facilitate the study of and enhance the quality of human life. Its approach is therefore inherently interdisciplinary. As a result, students gain employment in research organizations, food and textile industries, dietetic practice, education, child development domains, accreditation of green buildings, strategic planning and communication technologies.

B.Sc. (Prog.) Mathematical Science

A well-structured Mathematical component in B.Sc. (Prog.) Mathematical Sciences empowers the students to: Solve problems using a broad range of significant mathematical techniques, including calculus, algebra, geometry, analysis, numerical methods, differential equations, probability and statistics, along with hands-on learning through CAS and LaTeX. One of the program's aims is to combine the principles of physics and chemistry, as supported by mathematics, to describe the foundational concepts of the physical world and apply these concepts to new situations. Collaborate with others, including multidisciplinary groups, to solve scientific problems and recognize ethical issues in each profession; logical question assertions and recognizing patterns are other highlights of the course.

B.Tech. (Information Technology and Mathematical Innovation)

This unique course, the first one to be offered at Cluster Innovation Centre, is designed to inculcate an innovation mindset as part of the curriculum and pedagogy. It is a 4 years course with two semesters per year. This course aims to build strong analytical skills through Mathematics and application skills of Information Technology (IT). Skilled graduates with a creative mindset for innovation and entrepreneurship are another highlight of the course. In addition to this, the course is specifically designed to boost undergraduate research. This course provides a choice-based credit system where the students can take courses of their choice, learn at their own pace, undergo additional courses to acquire more than the required credits, and adopt an interdisciplinary approach to learning.

B.Com

Commerce is visualised as a link between society and business. The nature and purpose of interaction between both have undergone tremendous change with time. Information technology has re-modelled the shape and design of the business, engendering the metamorphosis of its very nature and the matrix of societal functioning. Recognising the implications of this change, the B.Com. Program aims at building in students an understanding of the functioning and premise of the business world. To achieve this, the program offers an opportunity for students to know different aspects of organizational functioning, financial systems, understanding of the economy, laws governing business, strategies adopted by businesses to reach society, etc. The program also provides the students an opportunity to explore, experiment and equip themselves to serve society not as employment seekers but as an entrepreneur and job creators.
