

Important Advisory

As, you are aware the second wave of COVID-19 has immersed our country, the only glimmer of hope in this pandemic as per MoHFW is getting vaccinated as the Vaccination gives us immunity to ward off and fight COVID-19.

As the Government of India has rolled out a vaccination drive for the age group from 18 to 45 years from 01.05.2021, I advise and urge all of you to ignore any misconceptions/rumours associated with vaccination and schedule appointment and get yourself and your loved ones who are in the aforementioned age group, vaccinated as early as possible to ward off any severity caused by COVID-19. I also hope that as SLC brand ambassadors, you will also enlighten people around you about vaccination and clear any misconceptions that they might have regarding getting vaccinated. It is needless to mention that vaccination of each will help our country in fighting off this pandemic.

I also urge you to take all necessary COVID appropriate behaviours like double layered masking, hand hygiene and social distancing as outlined by MoHFW after vaccination as well and take care of yourself, your families, colleagues and the society as well and also mentor and counsel your students in these precarious time regarding the same.

Get vaccinated; Stay safe with adequate precautions,
