

**LIGHTS! CAMERA! ACTION!**  
**Take 5. Cinephoria Film Club 2018-19**

**CINEPHORIA: The SLC Film Club** (conceived in the year 2012) continued to work for SLC film buffs and create an atmosphere of film-watching and film-curating among the youth. The motto of the film club has been to enhance the appreciation of cinema as art form and to coil in more debate and discussion, learning and experience for the film folks in the campus.

Cinephoria had four members in the session 2018-19 who worked relentlessly for an encompassing enterprise in the student-centric activities around film as art. These members were:

Shivansh Malhotra

Ashwini Yadav

Timpal and Manvendra

The Film Club was functioning under the faculty guidance of Mr. Rajarshi Kalita and Mr. Abbas Tapadar both of whom provided all necessary encouragement and support for the film club activities.

The session 2018-19 had grassroots discussion forums on cinematic genres. And there were few screenings of films from fantasy and thriller genres conducted by members. Discussions around films screened were extremely fruitful and many students who participated in events went on to specialize in the area and this added a great deal to their cinematic knowledge and a wider understanding of the popular media in general. Cinephoria members learnt the ability to critique a film, read between the lines and film theory as well. At the end of the session, the students involved in the activities could write good reviews and craft-based write ups on films and cinema as art in general.
