SLC is a participating institute in the Unnat Bharat Abhiyan and has adopted 5 villages in Uttar Pradesh: Dhitora (Baghpat), Nithora (Ghaziabad), Chirodi (Ghaziabad), Jawli (Ghaziabad), Kotwalpur (Ghaziabad). Under this initiative, the UBA team has conducted extensive surveys of the said villages and interacted with villagers and other stakeholders of the villages such as village Pradhans and village panchayat samities and other stakeholders. The village visits, surveys conducted, data collected and interactions with villagers and concerned stakeholders of the villages have helped the team to shortlist problem areas for further assistance. The SLC team planned and executed awareness campaigns for financial literacy including availing government financial incentives and schemes, insurance plans and health insurance, workshops for awareness around sanitation issues in the villages, campaigns about conservation of water, waste management, non-use of polythene, distribution of cloth bags and practical solution for proper waste management.

The college has also taken up the task of helping the ones in distress and to reach out to the villages during Covid-19 pandemic. As part of our social responsibility as an academic institution and on humanitarian grounds too, the College emerged as a flagbearer in spreading awareness about the probable reasons for the spread of Covid-19, its likely implications and what measures to be undertaken to reduce its consequences. awareness about the do's and don'ts during this pandemic and the national lockdown. SLC is sensitive towards the cause of conserving natural resources and promotes the culture of respecting nature. SLC in collaboration with NGO Jagriti recycles waste paper and in return receives reams of paper.

13. LED Lights

The usage of LED lights has reduced the power consumption heavily. The installation of LED lights following the installation of solar panels has helped the College save its financial resources. In addition to this, switch-off drills are carried out on regular basis to make the SLCians aware and alert regarding energy consumption and saving.

14. Assessment and Feedback

The College has also successfully implemented the structured feedback system that ensures that the concerns of the students are heard and addressed. So far, we have successfully completed five cycles of taking holistic feedback from the students that have been analysed and the issues related to academics, infrastructure and facilities raised have been addressed. Along with this, the IQAC also takes feedback on curriculum from different stakeholders. The action taken report is subsequently prepared and discussed with the different departments.

15. Opportunities for neighbourhood Under-Privileged Children to Participate/Coaching Facility for Different Games

Shyam Lal College is the foremost college in East Delhi Campus of the University of Delhi with outstanding sports facilities for games like Hockey, Baseball, Volleyball, Judo and Kabaddi. The College aims at promotion and improvement of sports and games in trans-Yamuna region of Delhi by providing opportunities and best coaching facilities to the young and talented players of the society. The college has taken this initiative to provide free and regular coaching in the above-mentioned games to deserving and talented students from neighbouring schools. The aim is also to promote indigenous games among the youth who are in some ways unaware of the vast career possibilities to be explored in our national games and sports.

16. Going Digital

The College is highly committed to adopt digital practices in all office and students related work. During the current Covid-19 pandemic also, the College has seamlessly switched over to the digital mode in academic and administrative functioning. Teachers and students are provided all facilities and administrative assistance in the conduct of online teaching-learning. IQAC collaborates with various departments to organize virtual lectures and talks and interviews of imminent personalities across the world. The College also encourages the faculty to record lectures through screencast-o-matic 2.0 software for future reference and benefit of the students.

The Administration took the digitalization one step further by transfiguring the students' I-cards into Single Sign-on (SSO) card. This card bearing bar-code is an in-house product developed by the technical team of the college. This one stop card is revolutionary as it makes the entire data just one click away and so is less time consuming with minimum chances of being faulty and ensures better access to the on-campus facilities like:

- Issuing books in library - the students can issue books with the help of SSO card and they would not require any separate library card.
- Security - It makes screening easier on special days like student elections, College fest, annual function etc. to avoid any scuffles and untoward incidents in the campus.
- Payment of bills - the College is also thinking of creating a pay wallet which will be connected with students' account so as to make their campus experience better.
- The Administration is virtually in touch with the non-teaching staff all the time during office hours.
- All the officials of the College are connected with the Principal through Google worksheet where routine jobs are assigned to concerned officials and are routinely monitored.
- The College teaching staff is always updated with real-time LED display in the staffroom which is used for the display of time-table and other important notices.

17. Inclusive Education and Development

The practice of Inclusive Education and Development continues from the last year as it serves meaningful benefit for the students. Since the location of the College is very strategic, the students from NCR/East Delhi get the maximum benefit of studying in a premier Delhi

University college. The College gives value-based education to the students (as is the vision of the College) and also takes care of the professionalism of the industry/market and prepares the students for the competitive world outside. Remedial classes, workshops organized by different departments, Placement Cell and Skill Development Cell, industry interaction through CIISD give the students enough exposure and feel of the professional world.

18. Community Outreach Programme

SLC is actively sensitive to its Institutional Social Responsibility and promotes institution neighbourhood community initiatives and outreach programs through its various activities that broadly fall under NCC/NSS/WDC/EOC/Sports. Adding one more pennant to the glory of SLC endeavours Enactus convened a new project "SWARNKRITI" on ground level. The team helped the beneficiaries with setting up the stalls and selling their crafts. This would help them in earning their livelihood.
- Various centres of SLC viz. Innovation, E-cell, CSD of the college collaborated with several research institutes and departments to explore the student’s latent skills and also conducted field trips, industrial and educational visits.
- Women Development Centre (WDC) in collaboration with National Service Scheme (NSS) and Swachhta Action Plan (SAP) of SLC organised awareness program on “Menstrual Hygiene Awareness Campaign”.

19. Institutional Social Responsibility during Covid-19 Pandemic

The College has also undertaken several institutional social responsibility initiatives during Covid-19 Pandemic. Some of the details are as follow:

- The College actively supports and observes government advisories issued about preventive measures, for Covid-19 pandemic, like hand hygiene, social distancing, cough etiquette is circulated among the staff, students, surrounding neighbourhood and in adopted villages from time to time.
