Course Name: 15 Days Course on Research Analytics

Date: 1st June, 2017 – 15th June, 2017

Course Outline/Syllabus/Curriculum:

- Overview of Research:
  - Definition of Research
  - Research Process
- Literature Review:
- Conducting Research:
- Data Analysis:
- Presenting the Findings:
- Ethics in Research and Getting the Research Published:

ASSESSMENT PROCEDURE:

The session's assessments were completed through practice tasks that involved a thorough review of past research papers, the discovery of solutions to specific questions, and the creation of a basic hypothesis for the same.

SUMMARY REPORT WITH OUTCOME:

The course was designed as a 15 days course (Total 30 hrs) and 170 students attended the same. Research is the creation of new knowledge, and to assist future researchers in conducting their research efficiently, a 15 days course on Research Analytics was made available to students from all disciplines. The program was led by renowned professors from Shyam Lal College, who shared their knowledge, self-taught tips, and their own presentations, all of which were designed to make concepts more clear.
