

UNNAT BHARAT ABHIYAN, SHYAM LAL COLLEGE

Visit to Village Jawli

The Unnat Bharat Abhiyan team of Shyam Lal College, SLC visited one of its adopted villages, Jawli on 7-8 September, 2019 to study the problems faced by the villagers. A team comprising of faculty members and 17 students visited the said village to connect and identify the problems faced by them. The Sarpanch of the village was approached to create a networking ground for the students and he was more than happy to extend a helping hand. The students interacted well with the villagers and encouraged them to come up with their issues. The following problems were identified during the visit:

1. Issues with water logging during rainy season due to proper waste water disposal system. The open drainage system of the village leads to breeding of mosquitos creating health issues for the villagers
2. As these villages do not have public water supply system, they use private summer civil pumps at their households to make up for their water needs. This has led to a lot of water wastage. This affects the ground water table level adversely.
3. These villages also suffer from acute issues with garbage disposal in the absence of a designated place to dispose the village garbage.

Principal Sir appreciated the efforts of the students and encouraged them to continue with their contribution towards the society.
