

A seminar on “Big Data Analytics”

11th February, 2020

The Centre for Skill Development (CSD) of SLC organized a seminar on “**Big Data Analytics**” on 11th February, 2020. The Resource person for the seminar was Dr. Sachin Malhotra, IT and Dean MCA, IIM Ghaziabad. The seminar was inaugurated by Prof. Rabi Narayan Kar, Principal of SLC, Dr. Kavita Arora, Convener of CSD gave the welcome address. Around 150 students and faculty members attended the seminar and were benefited with profound knowledge of speakers.

The seminar was organized with an objective to make aware the youth and faculty about the growing need of Data Analytics professionals in the corporate sector. The session was started by Dr. Sachin Malhotra by posing some questions to students participants on big data analytics. He then proceeded with explaining the concept of big data analysis, an advanced technique to extract & analyze large data sets. He further elaborated its growing need and importance in every field, i.e. research, economics, finance and for the big corporate houses. It is used in decision making, cost reduction, understating hidden patterns in information and trend analysis. With the rise in demand for big data analytics services it is opening up new career opportunities for the youth. Big data analytics has opened a new job market and exciting opportunities to the professionals. At the end of the seminar the question-answer round was taken over by the resource person. The seminar proved to be fruitful for the students looking for some new career opportunities. The seminar ended with a big applause and vote of thanks to the resource person and audience.
