Report on Frog Fest organized by WWF-India In collaboration with Department of environment, Government of India

Frog fest a unique festival that celebrates frogs in art and nature hosted by WWF-India, the festival includes an exhibition of frog artifacts' to raise awareness about frogs, their diversity and their value in nature and in culture. This festival inspires, enthuse and educate visitors through interactive activities so that they are motivated to adopt the cause of conservation as their own. So our 20 Eco Club volunteers participated on 26th March 2018. Where lot of items was on display at the exhibition include key rings, statues, tribal paintings, locks and boxes. Quizzes, games, workshops, films and eco trails for children and adults are also part of the exhibition, which hopes to raise awareness about the amphibian.
