

Eco-club (the_last_leaf) Shyam Lal College

Visit to “Mahatma Gandhi Institute for Combating Climate Change”

In Collaboration with

Department of Environment, Government of India

The Eco club of Shyam lal college (M) organized one day educational trip to Mahatma Gandhi Institute for Combating Climate Change on 14th Feb 2019. 24 Students along with mentor Dr. Sunaina Zutshi visited the location and got information about renewable energy. They got information on various usage of solar Energy. Informative videos regarding Biogas production and their application were shown. Instrumental Demo was shown to students by the faculty members Students got information about the non-conventional energy sources. Different types of plants such as herbal, ornamental, air purifying plants etc. were shown to the students.

Staff of this Institute is very supportive and cooperative. They directed the students about different ways to deal with climate change at domestic levels by using alternative sources of energy. Further the students were taken to campus visit. Here they explained different tools and inventions which are helpful for the environment and society. Students were very enthusiastic and enthralled by visiting the place. They gained lot of information from the institute. In last valedictory Session was addressed by Director Dr B.C. Sabata and Dr Vidyulatay, Faculty MGICCC followed by group Photography with students.
