Report on Circular Economy on Plastic Waste and
Livelihood Opportunities
In collaboration with
Department of Environment, Government of India

On the occasion of the birth anniversary of Pandit Deendayal Upadhyay under the leadership of Sri Vinod Shukla organized a conclave on Circular Economy of Plastic Waste and Livelihood Opportunities and Excellence Awards for Academia and Community. The motive of the conclave was to bring all the academic institutions under one umbrella and inculcate the sense of innovation and teamwork among the youth towards the environment. The event offered students an opportunity to showcase their work and be responsible towards the environment and various facets of its protection and preservation.

Apart from this panel discussion was also held on the topic “Role of Academia and Community in Circular Economy of Plastic Waste and Way Forward” in which emphasis was given to avoid single-use plastic and focus on four R’s (Reduce, Reuse, recycle & Rethink). Students were also encouraged to maintain and preserve the environment. Total 15 students from Eco club team (SLC) participated in this conclave on 25th September 2019 and also presented their work. This Conclave was inspiring for everyone to save our ecosystem.
