**Report on East Delhi flower show (UMANG-2.0)**  
**PUSHPMAHAOTSAVA**

In collaboration with  
**Department of environment, Government of India**

Eco-club and garden committee of our college organized UMANG-2.0 in the college campus a small initiative to boost floriculture and to protect the environment. The Garden committee of SLC takes great pride in organizing this year's Pushp Mahotsava by virtue of our Principal, Prof. Rabi Narayan Kar and the special attraction of this flower show was opportunity for nurseries, schools and colleges to showcase their floral varieties and species on 25<sup>th</sup> Feb 2020. The main objective of the event was to help raise awareness and to bring people and nature together. The flowers were lined up for the public to witness and embrace. Thus, the affair succeeded in encouraging the putting up of nurseries, schools and colleges to promote greenery and a way to express our gratitude towards nature. Also plantation drive was done on this occasion in the campus. Our Eco-club students not only participated in flower show but also exhibited some craft work made out of waste materials. They made some creative and useful things from the waste and introduced a better way to recycle waste to reduce pollution. They even made some organic cosmetic items like soaps, creams etc. as well as some hand made products. Eco-friendly Rangoli competition was also organised. Total 60 students participated in this drive.
