Visit to NGO (Umeed) In Collaboration with Department of Environment, Government of India

A team of **20** students (Eco club volunteers) in collaboration with Department of Environment, Govt. of India visited NGO named Umeed “A drop of Hope”, Indraprastha slum area on Sunday in the month of Feb From (2nd -16th '20) with the objective to monitor the living conditions of the people living in slums of Delhi NCR to gain a proper understanding of their needs and problems faced by them and creating awareness regarding the environmental issues. They conduct a knowledge drive for them and teach the slum children. The visit to the NGO was an eye opener to the living conditions of the people in slum areas. The students were able to create awareness regarding the importance of cleanliness and suggest ways to maintain proper levels of hygiene. The visit was a realization of the inaccessibility of education facilities to the children in the slum area. Students were taught on various topics regarding the environment and provided with means to get education. On the grass root level a lot of work still needs to be done in order to elevate the living condition of the people there and our team looks forward to visiting more such places in the near future.
