

**Eco-club (the\_last\_leaf) Shyam Lal College**

**Title of the Event: Awareness campaign towards the disposal and usage of sanitary pads**

Menstruation is a normal vaginal bleeding that occurs as part of a woman's monthly cycle. It is a completely natural process that occurs every month. Maintaining personal hygiene is the key to safe and peaceful menses. Without the right information for period hygiene you may end up suffering more than you need to. Our Eco-club team conducted awareness drive in collaboration with SAP team on disposal and usage of sanitary pads by means of social media and by physically interacting with people especially in slum areas (Ghitorni, near Ghitorni village fair, New Delhi) from 3-01-2021 to 9-01-2021. The main aim of the drive was centered on menstrual hygiene and proper disposal of sanitary napkins as this is the need of the hour. Volunteers also distributed sanitary pads to almost 800 women's who live in slum areas in different areas. A team of more than 40 students participated in this drive.
