

Eco-club (the_last_leaf) Shyam Lal College
In collaboration with
Department of Environment, Government of NCT, Delhi

Eco-club volunteers, in collaboration with SAP, organized a cleanliness drive on April 15th, 2023, at a neighbourhood park close to Tilak Nagar in West Delhi. Volunteers collected plastic trash, such as polyethylene, plastic bottles, packages, wrappers, etc., and disposed of it in trash cans. By organizing this cleanliness drive, they hoped to raise awareness among the public regarding the dangers of single-use plastics and the proper way to dispose of waste to protect the environment. They encouraged the use of cloth (cotton or jute) or paper bags instead. Additionally, the students educated the community about the problems caused by plastic and its effects on soil. 30 students participated in this drive.
