

Eco-club (the_last_leaf) Shyam Lal College
In collaboration with
Department of Environment, Government of NCT, Delhi

On 23rd December 22, the Eco Club of Shyam Lal College conducted a class discussion titled ‘‘Risk from Noise Pollution’’ among the students to create awareness. Students presented their views regarding the prevailing concerns about noise pollution as a social problem and its associated threats. They discussed several causes of noise pollution, such as vehicular sounds, construction, manufacturing, and household appliances. A few students also shared their views on the impact of noise pollution on humans and animals. Many students discussed and insisted on the idea of applying scientific methods to reduce the sources of noise pollution and also reduce the cost of noise-proof residential housing. About 50 students attended the discussion, where an awareness talk about the health hazards of excessive honking and noise pollution was given by Dr. Sunaina Zutshi, Coordinator of the Eco-Club. Students were advised to take steps to reduce unnecessary and unwanted sounds, be alert about loud music, and understand the side effects of honking.

The poster features a white background with a red header and footer. At the top, there are two circular logos: the left one is for Shyam Lal College, University of Delhi, and the right one is for the Department of Environment, Government of NCT, Delhi. In the center, the text reads 'Eco Club' in a green, stylized font, followed by 'SLC (University of Delhi) Shyam Lal College' in black. Below this, 'Eco-club' is written in large red letters, with 'organize' in smaller red letters underneath. The main title 'Discussion On Risk From Noise' is in large, bold, red letters. Below the title, the venue and date are listed: 'Venue: College Campus' and '23rd December, 2022'. At the bottom, the names and titles of the organizers are provided: 'Dr. Sunaina Zutshi, Co-ordinator, Eco-club' and 'Prof. Rabi Narayan Kar, Principal, SLC'.
