He narrated the challenges faced by him and sensitise the students that anyone else willing to achieve something needs to face it too. He asked students to have a clear goal and a target in their minds and be focused towards it. He also shared glimpses of the social work he and his team did during Covid lockdown, and how they're still helping students in getting free education. Even in the end, he motivated students to get out of their comfort zone and to do something remarkable. It was really an honour for us to have him on the panel.
