EVENTS- Seminar on "Information Security and Understanding Open-Source Software Evolution"

❖ One-day seminar on "Information Security and Understanding Open-Source Software Evolution" was organized on October 9th, 2017. The seminar was inaugurated by Principal Dr. Rabi Narayan Kar along with Prof. S.K. Muttoo from University of Delhi and Dr. V.B. Singh Associate Professor from DCAC College, University of Delhi. The welcome address was presented by the Principal Dr. Rabi Narayan Kar. Prof. Muttoo elucidated the importance of information in today's era and emphasized its security. He discussed the various aspects of information security and the three objectives – Confidentiality, Integrity and Availability. The session was followed by Dr. V. B. Singh throws light on open-source software evolution. Open-source software is a software that is distributed with its source code, making it available for use, modification and distribution with its original rights. He detailed various open-source software and emphasized the importance of software evolution. The seminar was extremely beneficial for the students. Around 120 students attended the event.
