

QUANTUM 2024

FIZ-IKS ANNUAL FEST

FIZ-IKS: The Physics Society (Dept. of Physics) of SLC(M), Successfully organized its Annual Fest QUANTUM 2024 on the 26th of April 2024, Friday in Room no. 10 of the old Building at Shyam Lal College. Under the Annual Fest, a total of Four events and competitions were Held including -

- Rangoli Making Competition, 09:00 AM
- Debating Competition, 10:15 AM
- Poster Making Competition, 11:30 AM
- Quiz Competition, 12:00 PM

The event witnessed enthusiastic and active participation by students from across colleges in Delhi-NCR, who engaged in thought-provoking discussions deliberations, and debates throughout the day.

Mr. Narendra Singh, Principal of Zakir Hussain College, attended the event as the Chief Guest, Teacher in charge Ms. Seema Dabas was also present throughout to felicitate the Guest and the Winners as well.

The Event was inaugurated with a Lamp Lightening Ceremony seeking the blessings of the Gods and the Chief Guest delivered an address to the students and the faculty members present.

The First event i.e. the Rangoli Making competition was marked by the creation of vibrant and beautiful intricate designs by students showcasing their outstanding skills and talents, the rangolis were carved out in the gallery outside room no. 10 and were all science-themed.

The Second - Debating Competition, was held in a conventional format wherein students were made known of the topic for their speech beforehand, they were given the liberty to either speak for or against the topic, the competition was bilingual and both the Hindi and English Debaters projected their impeccable speaking skills. The Topic was- the impact of AI on jobs.

The Third Science-themed Poster Making Competition, also saw the exhibition of the participant's artistic and design skills on the canvas, witnessing some of the most unique and insightful creations at the hands of the students.

The Fourth - Quiz Competition, put the critical thinking skills and scientific knowledge of the young scholars to the ultimate test, wherein participants were faced with the most challenging questions on topics from physics and current affairs relevant to the field of science.

The event was attended by well over 100 students, faculty, and participants. A prize distribution ceremony was held at the end where winners from all the competitions were rewarded with trophies and certificates of achievement, the prizes were given in three categories. In the end, QUANTUM 2024 was concluded on a good note, owing to the tireless efforts of the student members and the faculty as well as the active participation of all those who attended.
