

## REPORT ON STUDENTS' FEEDBACK (2024-25)

The perfect idea of a robust education system is the one which is student centric. The students have always been an integral part of the College. The key measure of College's development can be easily figured out by the holistic development of its students. In order to gather the perception of students for the academic session 2024-25, a questionnaire with ten parameters has been circulated. The data set comprises of representative and convenience sampling. The collected data points from **385** students are analysed on a 5-point Like scale. The scale measures the responses as Extremely Satisfied, Satisfied, Neither Satisfied nor Dissatisfied, Dissatisfied or Extremely Dissatisfied. The Table demonstrates the average responses observed on the given scale as against the respective parameters. As a higher (or lower) proportion of students respond as Extremely Satisfied and Satisfied (or Extremely Dissatisfied and Dissatisfied), indicates the parameter in favour of (or against) Students and highlights that the College is attaining (or deviating from) its goal.
