

Industrial Visit 'Yakult Danone, Sonipat'

A one-day industrial visit to Yakult Danone, Sonipat was organized by Shyam Lal College, University of Delhi under the aegis of DBT Star College Scheme. A batch of 42 students of BSc (H) Chem and BSc Phy Sci along with the faculty members and lab staff visited the manufacturing plant on 1st Sep 2022. The visit was a complete package since the students got the opportunity to learn how the giant and leading probiotic manufacturing company is making over 1 million bottles per day. The design of the plant was very visitors friendly; all the executives splendidly explained the entire process from scratch via presentation and then at the functional site. The entire premises were super hygienic and clean.
