

Report of Webinar on
'Entanglement Entropy and Holography'
organized under
SLC Eminent Lecture Series 2021-2022

This is hereby reported that a Webinar on '**Entanglement Entropy and Holography**' was organized by Shyam Lal College, University of Delhi under the aegis of DBT Star College Scheme in collaboration with IQAC on **08th September 2021** under **SLC Eminent Lecture Series 2021-2022** using Zoom as an online platform (**Annexure 1**). **Prof. Justin David**, Centre for High Energy Physics, Indian Institute of Science, Bangalore, was the keynote speaker of the day. The SLC Eminent Lecture Series 2021-2022 has been launched with the purpose of offering a holistic academic approach to the young pupil by fostering innovative thinking and research aptitude through interaction with eminent speakers and professionals from varied areas of science and technology. It is believed that such an engagement of educators and students with the experts would enable them in harnessing their skills and creativity to accelerate the innovation at personal as well as organizational levels. More than 80 participants, including students and teachers from various disciplines such as Mathematics, Physics and Chemistry, attended the webinar with great enthusiasm. The feedback forms reflected that a majority of participants found the webinar to be very useful and informative and were highly satisfied with the ideas and concepts so presented (**Annexure 2**). For this overwhelming success, the organizers are very thankful to **Prof. Rabi Narayan Kar** (Principal, SLC) and **Prof. Kusha Tiwari** (Coordinator IQAC) for their support and guidance throughout the organization of this event. Glimpses of the event and list of the participants who filled the feedback form is attached herewith as **Annexure 3 and 4**.

Entropy of a probability distribution: (Von-Neumann, 1932) is defined as

$$S = -k_B \sum_{i=1}^N p_i \log p_i$$

$k_B = 1.38 \times 10^{-23} \text{ m}^2 \text{ kg s}^{-2} \text{ K}^{-1}$,
is the Boltzmann constant which connects this definition to conventional units in thermodynamics.

We will suppress this constant from now on.
