

## UNNAT BHARAT ABHIYAN, SHYAM LAL COLLEGE

### Visit to Village Kotwalpur

The Unnat Bharat Abhiyan team of Shyam Lal College, SLC visited one of its adopted villages, Kotwalpur on 15 September, 2019 to have a bird's eye view of problems faced by the villagers. A team consisting of over 14 students and faculty members tried to reach as many villagers as possible to have a clear understanding of their lives and their grievances. The following problems were identified during the visit:

1. Issues with the drainage system of the village. The open drainage system becomes a breeding ground for mosquitos and spreads bad odor.
2. Issues with village garbage disposal
3. In the absence of public water supply system, the summer civil pumps used for the water utility purposes lead to a lot of wastage of water.

The students were empathetic towards the needs of the villagers and really wished to contribute towards the improvement of their lives. They were keen to make a difference and urged the College to contribute towards this cause. The students highlighted the issue to Principal Sir and he assured them of his complete support. He applauded the efforts of the team.
