

UNNAT BHARAT ABHIYAN, SHYAM LAL COLLEGE

Visit to Village Nithora

The Unnat Bharat Abhiyan team of Shyam Lal College, SLC visited one of its adopted villages, Nithora on 14 September, 2019 to study the problems faced by the villagers. A team of 7 students along with faculty members visited the village and communicated with them. The Village Sarpanch extended a helping hand by taking around the students around the village and helping them connect well. The students enthusiastically took up the cause and carefully listened to the issues highlighted by the villagers. The students even urged to help them academically wherever possible.

The following problems were identified during the visit:

1. The severe water logging situation in the underpass connecting the village to the main road.
2. No Senior Secondary School and hospital in the village. Villagers want a skill development training center so as to make youngsters of the village employable.
3. Open drainage system of the village and absence of a proper disposal of the garbage of the village.

The problems so identified were brought to the notice of the College authorities so that they could be escalated to the relevant authorities. The College authorities assured them of taking up the cause.
