**Mask distribution in Nithora village**

On 15 June, 2021, team UBA of SLC, under the aegis of MHRD, conducted an active campaign of distributing masks in one of the adopted villages, Nithora, during the high peak Covid times. The said campaign was the need of the hour as the cases were rising at an exorbitant rate and masking was one of the prominent solutions. Around 5 students and other staff members participated in the drive.

The distribution of reusable and disposable masks were done on a large scale where the villagers were not just provided masks, but also were educated about the proper use of the same. Each village household was provided with an average of 4 masks for the entire family members. Also the people passing across were called to take their masks. Everyone was cautioned to wear a mask upto their nose and avoid touching it with unhygienic hands. People were also advised to sanitize their hands at regular intervals. People were also encouraged to get themselves vaccinated at the earliest. Also, keeping the mask safe while not being in use was also told about. People were even educated about proper disposal of masks. Providing masks gave them a slight protection from spreading the disease. The villagers were glad and felt valued to receive the safety tools and instructions from the college's side.

Principal Sir applauded the efforts of the team and thanked them for their active participation.
